Projects

Travelling With Taste

Producer, Programmer, UI/UX Designer   Mar 2025 - May 2025
- Produced a polished stealth game in a team of 7 students over the course of 7 weeks in Unreal Engine
- Programmed core game systems and implemented game UI using blueprints

Plates of Power

Writer   Sept 2024 - May 2025
- Drafted, revised, and iterated upon character profiles and dialogue.
- Created documentation for the team to use when referencing characters, mechanics, or features.

Overgrown

Audio Designer   Jan 2025 - Apr 2025
- Recorded, edited, and implemented sound effects for the game
- Composed and revised original music for the game

Les Paulverizer Website

Team Member   Sep 2024 - Oct 2024
- Developed a website in a team of 3 students to interact with a physical Les Paulverizer device
- Implemented customizable features on the website, allowing a user to upload and configure their own music tracks

Custom Minesweeper

Programmer and UI/UX Designer   Sep 2023 - Oct 2023
- Recreated Minesweeper in Unity and developed features to build off of the base game in a team of students
- Gained significant experience in Unity, game development, and project management

Experience

Mathnasium

Instructor   Sept 2024 - Present
- Tailored math lessons to students' individual needs, based on skills, confidence, and grade level
- Coordinated with other instructors to support every student during lessons

Storytelling In Interactive Media and Games

Teaching Assistant   Mar 2025 - May 2025
- Lead class discussions and activities when the Professor was unavailable.
- Provided support and guidance in storytelling concepts and analysis.

Game Audio I

Teaching Assistant   Oct 2024 - Dec 2024
- Provided tech support for students using VCV Rack, Emission Control 2, and Reaper
- Worked with students during in-class labs and office hours
